Demonstrators and ex-hire are subject to 35% rebates. Fleet deals are subject to further Terms and Conditions. For full terms and conditions contact your local Scottish Machinery Ring.

## THE PROCESS IS SIMPLE

Visit your local Case IH dealer and purchase your new Case IH tractor, baler, combine or telehandler.

Let your local Machinery Ring know and send them a copy of the dealer invoice or finance documents as soon as possible, and they will take care of claiming the rebate.

The Case IH brand represents a tradition of leadership. It is the culmination of great agricultural equipment companies and brands, including Case, International Harvester, Steyr and David Brown to name a few.

Each of these brands have played an important role in the history and evolution of Case IH. Over the years, many things have changed, but the legendary red brand will always represent a commitment to making agricultural producers more efficient and successful.

Scotland's first Machinery Ring was established in 1987. The Scottish Machinery Ring Association now has 9 member rings serving more than 7,000 farmers and rural businesses in Scotland and the North of England. Machinery Rings can deliver substantial savings on machinery, labour and commodities as well as offering access to training and skills development.
